

CONTINUOUS DELIVERY

Changing
software
delivery

TRADITIONAL INFRASTRUCTURE

Consumes more human resources,
more costs and less efficient

PROVISIONING TOO MANY RESOURCES

DevOps Comes to save

We can Build, Test, Debug and
Deploy with ease

AUTOMATE INFRASTRUCTURE CREATION AND MONITORING

- Faster Deployments and less errors means reducing costs. Simple enough

**FAIL FAST! CATCH ERRORS
BEFORE THEY GO TO
PRODUCTION AND SAVE
COSTS**

SUMMARY

- DevOps reduces business costs by reducing human errors to minimum, finding issues before they are on production and make users mad. By reducing these costs, we can afford to hire other team members and increase the revenue
